

Principal's Message

Believe or not, we're already closing in on the end of another school year. Several students have already completed all their graduation requirements, and many more are feeling the crunch to finish up by June. Parents, please help your son or daughter to remain focused on the prize! Earning a high school diploma will open doors for your student that could otherwise remain closed for a lifetime. They have worked hard to get to this point, and we shouldn't allow the distractions that each student will face over the next few months to spoil their success! Please, please, please....stay in touch with your child to help them make good decisions at this critical time.

On another note, two parent groups have sued the California Department of Education to allow them to look at the educational records of California students. If you have any issues with your child's records being examined by these groups, you might want to take a look at the link, below. It provides a **Notice and Objection Form** to allow parents to object, by April 1, 2016, to the disclosure of personally identifiable information related to their children.
